### About me

Howdy, my name is Lottie but most folks call me Loco! I am an animator and an artist who primarily uses AfterEffects and Photoshop.

After graduating Sheffield Hallam University with a first class masters in Animation, I have been working as a motion graphic designer for an e-learning company called iHASCO.

### Experience

#### 2022 - Present - Digital Artworker and Animator, iHASCO

Followed creative briefs to produce high quality video based content for training courses. Aided colleagues on the production of their projects through the creation of 2D art, assets and animations. Participated in team discussions, critiques and reviews. Examples of the work I have produced here can be found in my showreel and website.

#### 2018 - 2022 - Motion Graphic Designer, iHASCO

Followed creative briefs to produce high quality video based content for training courses. Worked with brand guidelines to create graphical and video based content for web and social media channels. Assisted on filming shoots.

#### 2020 - iHASCO course of the year, Managing Anxiety

Mixture of hand drawn animation and motion graphics. Created using Photoshop and AfterEffects.

#### 2018 - Degree Short Film, Sedna

Created a 2D short animated film called Sedna. This film, as well as my preproduction work, can be viewed on my website.

#### 2014 - BFI Silver Arts Award

Worked under mentorship with Resource Productions at Pinewood Studio to make a short film

### Skills

### Education

Sheffield Hallam University  
BA Animation  
(2014-2017)

Sheffield Hallam University  
MArt Animation  
(2017-2018)
